APR 12 2001

There is a communication from the Commissioner to change of the application
COMMISSIONER OF PATENTS AND TRADEMARKS

ADVISORY ACTION

DOCKETED

Final 2001-2001

THIS MESSAGE FOR REPLY:

1. ☒ The reply is due 3 months from the date of the first Office action (including extension of time granted).

2. ☐ The reply is due 6 months from the date of the first Office action, if (a) on the first date of this Advisory Action, the applicant is not in compliance with the applicable provisions of the Manual of Patent Examining Procedure (MPEP) and (b) the applicant has not filed a request for extension of time.

Extension of time may be granted under 37 CFR 1.136(b). The date on which the patent under 37 CFR 1.136(b) and the appropriate extension fee have been paid is the date for purposes of determining the period of extension and the corresponding request of the fee. The appropriate extension fee under 37 CFR 1.136(b) is calculated based on the expiration date of the shortened statutory period for reply which is set in the first Office action, or (2) as set forth in (b) above.

3. ☐ Applicant's reply is due to compliance with 37 CFR 1.136(b).

4. ☒ Applicant's reply is due to compliance with 37 CFR 1.136(b) and the applicant has not filed a request for extension of time.

5. ☐ The proposed amendment to the claim after specification will not be entered and the first rejection stands because:

a. ☐ There have been continuing amendments under 37 CFR 1.136(b) why the proposed amendment is necessary and not a new amendment.

b. ☒ They also now state that would require further consideration under 37 CFR 1.136(b).

c. ☐ They also state the terms of new matter. (See Note).

d. ☒ They are not allowed to place the application in better form for reply by materially changing or amending the claims.

e. ☐ They present additional claims without presenting a corresponding number of timely rejected claims.

1. The period for reply **CONTINUES** to run **THREE (3) MONTHS** from the date of the final rejection. Any extension of time must be obtained by filing a petition under 37 CFR 1.136(a) accompanied by the appropriate fee. The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. A reply within the meaning of 37 CFR 1.113 must be timely filed to avoid abandonment of this application.

2. The amendment filed 3/28/01 under 37 CFR 1.116 in reply to the final rejection has been considered but is not deemed to place the application in condition for allowance and will not be entered because:

The proposed amendment raises new issues that would require further consideration and/or search. The terms "reduced quantity" (proposed claim 30) and "connecting wires" (claim 31) would raise new issues under 35 USC §112. The phrase "migrate transversally to the solution flowing" would raise a new issue. The cancellation of claims 12 and 11 would render their dependent claims 26 and 29 incomplete.

The proposed amendment is not deemed to place the application in better form for appeal by materially simplifying the issues for appeal.
